

India Desk

DFDL was established in 1994 and built on a unique vision: to create an integrated international law firm, with an in-depth knowledge of the jurisdictions we work in, providing technical excellence across our core areas of expertise.

Twenty-three years later, DFDL continues to build on its reputation as the obvious first choice law firm for sophisticated transactions in emerging markets across Asia and beyond.

As Southeast Asia and other emerging markets continue to expand and thrive, so has DFDL and we are now uniquely positioned to help clients access promising international growth opportunities in the world's most dynamic region.

DFDL has established an India Desk comprised of advisers with experience in South Asia focusing on the business needs of DFDL's Indian clients. The India Desk focuses on all aspects of business and investment opportunities in connection with outbound investments into Southeast Asia, South Asia, and beyond.

Drawing on DFDL's international and local expertise in legal and tax services, combined with our understanding of Indian business culture, India's legal regime, and the interests of our Indian clients, DFDL is the go-to firm for Indian corporations looking to expand their businesses further into Asia.

Our team is comprised of Indian and international advisers who are highly experienced in working with Indian business interests and are able to provide a full range of services to Indian companies who are looking to develop their operations internationally.
