

## DFDL BOI Package

### List of Promoted Activities

#### A1

Biotechnology

Calibration services

Cloud service

Creative product design and development center

Date center industrial estates or industrial zones

Economic forest plantation

Embedded software

Embedded system design

Energy Service Companies (ESCO)

Engineering design

Manufacture of aircraft, airframe, airframe parts, and major aircraft appliance

Microelectronics design

Production of electricity and/or steam from garbage or refuse derived fuel

Production of electricity or electricity and steam

Research and development

Science and technology parks

Scientific laboratories

Software parks

Vocational training centers

#### A2

Building or repair of ships

Commercial airports

Grading, packaging and storage of plants, vegetables, fruits or flowers

Manufacture of active ingredients from natural raw materials

Manufacture of active pharmaceutical ingredients

Manufacture of advanced or nano materials or products produced from advanced or nano materials

Manufacture of advanced technology hard disk drives and/or parts

Manufacture of automation machinery and/or automation equipment with engineering design

Manufacture of automobile parts for safety parts and energy-saving parts

Manufacture of chemical fundamental fertilizers

Manufacture of downstream steel with continuous production process

Manufacture of ductile cast steel parts

Manufacture of eco-friendly chemicals or polymers

Manufacture of electronic control and measurement instruments for industrial/agricultural use

Manufacture of emission, transmission and reception devices used in fiber-optic and wireless communication systems

Manufacture of fuel cells

Manufacture of fuel from agricultural products

Manufacture of fuel from agricultural scrap or garbage or waste

Manufacture of high tensile strength steel

Manufacture of hygienic pulp or hygienic paper

Manufacture of intermediate steel

Manufacture of medical devices (high-tech)

Manufacture of medical food or food supplements

Manufacture of organics and printed electronics

Manufacture of parts for electronic control and measurement instruments for industrial/agricultural use, medical/scientific devices and automotive industry

Manufacture of parts for emission, transmission and reception devices used in fiber-optic and wireless communication products

Manufacture of parts for hybrid, electric vehicle and plug-in hybrid electric vehicles

Manufacture of parts for organics and printed electronics

Manufacture of parts for security control equipment

Manufacture of parts for telecommunication products

Manufacture of rubber products

Manufacture of rubber tires for vehicles

Manufacture of scientific equipment using high technology

Manufacture of security control equipment

Manufacture of solar cells and/or raw materials for solar cells

Manufacture of solid state drives and/or parts for solid state drives

Manufacture of specialty polymers or specialty chemicals

Manufacture of technical fiber or functional fiber

Manufacture of trains or electric trains or equipment or parts

Manufacture of up-stream steel

Manufacture of vehicle parts using high technology

Manufacture of wafers

Maritime transportation services

Mass transit systems (rail transport)

Product sterilization services

Production of electricity from renewable energy

Repair of aircraft, parts and equipment

**A3**

Air transportation services

Amusement parks

Aquariums

Bleaching, dyeing and finishing or printing and finishing or printing

Cable cars

Container yards or inland container depots

Convention halls

Cultural centers or arts and crafts centers

Deep sea fishery

Enterprise software and/or digital content

Fabrication industry of platform repair with engineering design

Gem and jewelry industrial zones

Industrial zone for environmental protection

Industrial zone for motion picture production

International distribution centers

International exhibition centers

Loading/unloading facilities for cargo ship

Logistics park

Manufacture of advanced technology electrical products

Manufacture of antistatic plastic packaging

Manufacture of aseptic plastic packaging

Manufacture of automobile engines

Manufacture of biological fertilizers, organic fertilizers, nano-coated organo chemical fertilizer and bio-pesticides

Manufacture of biomass briquettes and pellets

Manufacture of cold rolled electrical steel sheet

Manufacture of equipment and/or parts for photonic devices and/or for photonic integrated systems

Manufacture of flat panel displays

Manufacture of flexible printed circuits and/or multi-layered printed circuit board and/or parts

Manufacture of forged iron/steel parts

Manufacture of functional yarn or functional fabric

Manufacture of machinery, equipment and parts and/or repaid of mold and die

Manufacture of material based on thin-film technology

Manufacture of metal powder

Manufacture of metal products or metal parts

Manufacture of modified

starch or starch made from plants that have special properties

Manufacture of motorcycles (higher than 248 cc)

Manufacture of multilayer plastic packaging

Manufacture of oil or fat from plants or animals (except for soybean oil)

Manufacture of other aircraft parts and onboard devices and equipment

Manufacture of other cast steel parts

Manufacture of other medical devices

Manufacture of other scientific equipment

Manufacture of other telecommunication products

Manufacture of parts and/or equipment for solar-powered products

Manufacture of parts for other telecommunication products

Manufacture of petrochemicals

Manufacture of power investors for industrial use

Manufacture of preservation of food beverages, food additives or food ingredients

Manufacture of products from eco-friendly polymers

Manufacture of products from metal or alloy powder

Manufacture of products produced from advanced or nano materials

Manufacture of semiconductors and/or parts for semiconductors

Manufacture of special quality glass products

Manufacture of specialty pulp or specialty paper

Manufacture of steel pipes

Manufacture of tin mill black plate

Motion picture supporting services

Open zoos

Plan or animal breeding

Production of digital printed matter

Production of tap water, industrial water or steam

Race tracks

Recycling and reuse of unwanted materials

Tanneries or leather finishing

Thai motion picture production

Trading centers for agricultural goods

**A4**

Animal propagation or animal husbandry

Assembling of machinery

and machinery equipment

Assembly of engines

Fabrication industry or platform repair for petroleum industry

Heat treatment of metal products

Hotels

Manufacture of air conditioners, refrigerators, freezers, washing and drying machines

Manufacture of audio visual products

Manufacture of bags or shoes or products made of leather or artificial leather

Manufacture of compressors and/or motors for electrical appliances

Manufacture of electro-magnetic products

Manufacture of ferro-alloy

Manufacture of flat rolled steel products

Manufacture of furniture or parts

Manufacture of garments, clothing accessories and household textiles

Manufacture of gems and jewelry or parts including raw materials and prototype

Manufacture of high performance paper products

Manufacture of industrial

chemicals

Manufacture of LED lamps

Manufacture of lenses

Manufacture of long steel products for industrial use

Manufacture of medical devices made of fabrics or fibers (gowns, drapes etc.)

Manufacture of memory storage equipment

Manufacture of multi-purpose engines and equipment

Manufacture of natural extracts or products from natural extracts (except for medicine, soap, shampoo, toothpaste and cosmetics)

Manufacture of non-woven fabric or hygienic products made of non-woven fabric

Manufacture of office electronics

Manufacture of other power inverters

Manufacture of other yarn or fabric

Manufacture of paper container coated with bio-plastics

Manufacture of parts for audio visual products

Manufacture of parts for office electronics

Manufacture of passive components

Manufacture of plastic products from recycled

plastic

Manufacture of primary processed rubber

Manufacture of printed circuit board assembly

Manufacture of products from agricultural by-products or agricultural waste

Manufacture of products from hygienic paper

Manufacture of recycled fiber

Manufacture of top covers, base plates or peripherals for hard disk drives

Manufacture of toys

Production of electricity from other energy sources (including cogeneration)

Rolling, drawing, casting or forging of non-ferrous metals

Slaughtering

**B1**

Cold storage or cold storage and cold storage transportation

Crop drying and silo facilities

Distribution centers

Ferry services or tour boat services or tour boat renting

Health rehabilitation centers

Industrial zones or industrial estates

International Headquarters

International Trading Centers

Manufacture of ceramic products

Manufacture of flat rolled steel products for construction use

Manufacture of general automobile

Manufacture of glass products

Manufacture of long steel products for construction use

Manufacture of medicine

Manufacture of musical instruments

Manufacture of other electrical products

Manufacture of other electronic products

Manufacture of other fibers

Manufacture of other steel pipes

Manufacture of other vehicle parts

Manufacture of parts and/or equipment for other electrical products

Manufacture of plastic products for industrial goods

Manufacture of printed matter

Manufacture of sports equipment or parts

Manufacture of sunglass lenses, cosmetic lenses, eyeglass frames and parts

Manufacture of wire harnesses

Natural gas stations

Oil refinery

Pipeline transportation

Potash mining and/or dressing

Prospecting of minerals

Surface treatment or anodized surface treatment

Tour boat port services

**B2**

Coil center

E-commerce

Hotels in provinces

Manufacture of fire-resistant materials or heat insulation

Manufacture of gypsum board or gypsum products

Trade and investment support offices
